

Topic

History

In History, the children will be learning all about the Maya Civilisation. They will explore how civilizations evolved and advanced over time. The children will look at the engineering and buildings of the Mayas, as well as their lifestyles. They will explore the Mayan numerical system and make comparisons to the number system we use today.

Art & Design

In art children will look at different interactive installation sculptures. They will be developing and creating their own interactive installation sculpture.

Design Technology

In DT, children will design and create a bag. They will learn how to apply their sewing skills and add decorations to their bag.

What are We Learning in Year 5 during the Autumn Term?

Computing

In computing this term, we are looking at Computer systems, networks and searching. The children will learn all about creating media through video production.

PSHE/RSE

Being Me is the first topic the children will cover in PSHE. They will discuss their own personal goals and how to achieve them. They will also learn about bring a role model and what democracy means. Celebrating Differences will look at how every individual is different and how everyone should be respected.

PE

In PE this term the children will be working on passing, movement and teamwork in hockey. They will also be learning about health-related fitness and how to stay healthy.

Science

Science this term begins with learning about different mixtures. Children will learn the differences between mixing and dissolving. They will learn how to recognise processes of separating mixtures and describe how to recover a substance from a solution. The children will also be learning how to classify materials based on their properties and demonstrate dissolving, mixing and change of state is reversible changes

French

This term in French we will be learning the days of the week, months of the year and numbers 1-31 will be introduced, revised and consolidated so, by the end of this unit, pupils will have the knowledge and skills to say the date and when their birthday is in French. We will also be learning about pets.

Music

In music this term the children will learn to listen and appraise music as well as practicing singing in unison to backing music.

Religious Education

In RE, we will learn how different religions and world views welcome new life and show their commitment to their religion. We will explore different ceremonies that take place within religions to show their commitment to God.
